BEST RESIDENTIAL DEVELOPMENT MERSEYSIDE

X1 The Quarter by X1 Developments

2014-2015
The Tower is the fifth and final phase of X1 The Quarter, X1's award-winning development near the beautiful Liverpool waterfront, with all previous phases sold out and fully tenanted. The success of the previous phases demonstrate the huge demand for prime residential accommodation in Liverpool, and The Tower at X1 The Quarter is sure to prove popular with both investors and future tenants.

The Tower is comprised of 196 new-build luxury apartments ranging from spacious studios to premium 3-beds, situated in the heart of Liverpool. This 24-storey development will become an iconic part of the city and a fantastic addition to the local rental market, which suffers from a chronic lack of high quality rental property. The proximity of Liverpool's universities and the low supply of high quality student accommodation in the city make the area around X1 The Quarter especially attractive to Liverpool's large student population.

Each of The Towers 196 apartments will be built to the highest possible standard. The excellent specification of the apartments and the design focussed on making the best possible use of natural light ensure that apartments at The Tower will provide a thoroughly modern and cosmopolitan living experience. In addition, the historic city of Liverpool and the city’s famous dockyards will provide the tenants in these luxury apartments with truly unbeatable views. Tenants will also be able to enjoy a communal residents’ lounge and secure car parking available, on selected apartments.

KEY FACTS:

- There are almost 2 million landlords in the UK (HMRC).
- Number of rental households to grow to over 7 million by 2025 (Pricewaterhousecoopers).
- The PRS accounted for 22% of all UK households in 2015 (ResPublica).
The UK buy-to-let market is one of the strongest in the world. A generational shift in terms of both the affordability of and attitudes towards home-ownership has seen the Private Rented Sector (PRS) grow enormously - and property investors have taken full advantage of this. There are almost two million landlords in the UK, and that number is growing all the time thanks to impressive capital gains and high rental yields. The PRS makes up 22% of all households in the UK and is predicted to grow to over 7 million households by 2025.

The disparity between the overwhelming need for quality rental accommodation and the real shortage of available stock has ensured that luxury rental property is in very high demand, regardless of any short term political or economic changes which may occur. The number of houses completed every year in the UK is nowhere near the level needed to assuage the current shortfall, meaning that the luxury rental market is set to remain a superb investment choice in the present and for the foreseeable future.

As the London property market continues to slow down, offering ever lower rental yields and often non-existent capital gains, investors are looking to the big Northern cities to build their buy-to-let portfolios. Liverpool is a leading example of this trend, with property investors flocking to the city to take advantage of the impressive market where rental yields are projected to grow 22% by 2021. Liverpool is the perfect example of a regional city making the most of its position in the Northern Powerhouse and there has never been a better time to invest here.
Liverpool is one of the UK’s most famous cities and was historically a major centre for worldwide maritime trade during the Industrial Revolution. Today, Liverpool is undergoing a resurgence and has consistently been one of the fastest growing cities in the country over the last decade. Add in Liverpool’s status as a former City of Culture, the extensive regeneration of the city centre and the expansion of the shipping ports and it is clear to see that this is a city on the up.

Liverpool’s housing market has grown in tandem with the rest of the city. The local buy-to-let market is one of the strongest in the UK and investors from around the world are finding fantastic deals in the city. Liverpool’s population stands at over 470,000 thanks to growth of more than 5% in the last decade, making it the sixth most populous city in the UK, and that figure is expected to top 500,000 within the next ten years as growth continues unabated. The city’s student population is also significant with almost 50,000 people enrolled in one of Liverpool’s four world class universities. The rapid population growth and large student population has resulted in a shortfall of high quality rental property in the city, making Liverpool one of the UK’s most important buy-to-let hotspots. It is predicted that house prices will grow by more than 20% by 2021.

Liverpool is regularly named in lists of the UK’s top buy-to-let hotspots and it is easy to see why with consistent average rental yields of at least 5%. The region as a whole is going from strength to strength. Hundreds of millions of pounds are being invested in new property developments and infrastructure which is boosting an already strong economy worth over £13bn. Combine that with the aforementioned population growth and it is clear that Liverpool will remain at the forefront of the UK buy-to-let market for many years to come.
KEY FACTS:

- The population of Liverpool is projected to reach 500,000 within 10 years (Liverpool City Council)
- Rental yields in Liverpool projected to grow 22% by 2021 (National Housing Federation)
- Liverpool is a leading UK centre for asset and wealth management (Liverpool City Region Property Investment Guide 2016)
- More than 30% of the population of Liverpool are under 25 years old (Liverpool City Council)

In addition to its thriving rental and buy-to-let market, Liverpool also boasts a large regional economy, of which tourism contributes in excess of £3.64bn every year thanks to the vast array of tourist attractions and amenities on offer.

A jewel in Liverpool’s crown is the iconic Albert Dock, a collection of listed buildings along the River Mersey that has fast gained a reputation as the most visited multi-use attraction in the UK outside of London. This development plays host to a selection of bars, restaurants and cultural places of interest, all set against a beautiful waterfront backdrop. Furthermore, new additions to the city’s infrastructure include the newly-created Liverpool ONE, the largest open-air shopping complex in the UK, the likes of which has allowed Liverpool to skyrocket in popularity since its completion in 2008.

Capitalising on the city’s vast cultural resonance, Liverpool is proud of its heritage in arts, football and music, boasting a plethora of museums and art galleries, two Premier League football teams, as well as being the iconic home to one of the most famous British bands in the world, The Beatles. In such a large and diverse city as Liverpool, there is something to appeal to every taste, budget and inclination.

The penultimate tower in X1’s flagship development in Manchester, X1 Media City Tower 3 will deliver 275 premium apartments to a prime rental market, with stunning views of its namesake MediaCityUK.

Located in a premier student hotspot within the University of Salford Campus, the aptly named X1 The Campus development will provide much-needed accommodation for Salford University’s 18,000-strong populace.

Situated on the gateway to Salford Quays and MediaCityUK, X1 The Gateway project is the epitome of cosmopolitan waterfront living. Providing 191 stunning apartments to the private rented sector, X1 The Gateway has been a flyaway success.

X1’s first venture in Leeds, their premier development X1 Aire is perfectly named, situated just a stone’s throw away from the city’s River Aire. This development provides a range of apartments varying from luxury studios to 2-beds.

X1 The Plaza is a standout development in X1’s portfolio, situated in the up-and-coming Ancoats area of Manchester. The rental market in the area is truly thriving, so X1 The Plaza’s 201 apartments are expected to be snapped up quickly after completion.

The penultimate phase of the award-winning five-phase X1 The Quarter development on Liverpool’s waterfront, X1 The Terrace was a hit with both investors and tenants alike. So popular is X1 The Quarter that demand is already rife for the fifth phase, X1 The Tower.
